

Interview – 1 Feb 2008

Start 10.00 AM –Finish 10.30 AM.

The applicant spoke with the examiner over the telephone.

Issues discussed was with Claim 1. The examiner restated the 112 (2) with the second element and how it is confusing. The applicant replied that his invention is to claim the datum being received in the network from the central controller and hence there is no need to identify where they came from. The examiner agrees there is no calculating in Wall (reference). Wall only states booking fee is 150. The examiner states that there is no mention of the workings of vehicle manufacturer system in the claim. The examiner also states that it needs extensive amendment so a RCE is preferred. The applicant suggested that he will think it over the weekend as the cost may be high.

Yours truly,

A handwritten signature in black ink, consisting of stylized, overlapping strokes that form the letters 'K' and 'W'.
